Preservation Award Guidelines

The intent of the Preservation Award is to recognize those people who have made a genuine effort to preserve and maintain a vintage car without doing a complete restoration. The preservation work must be tastefully done using colors, fabrics, accessories, etc., which are in keeping with the era of the vehicle. Items or changes which enhance the safety of the vehicle will not deter from the vehicle's eligibility for an award, however major modifications from original will not be accepted.

Applicants must have owned the vehicle for a minimum of five years prior to making an application.

Completed application forms must be in the possession of a committee member on or before the regular June meeting. This will allow time for the committee members to make arrangements to view the car and determine that it meets all the requirements. Forms will not be accepted after this date for the current calendar year.

Areas to be considered.....

- 1. BODYWORK....**
 - No visible rust or bubbling of paint.
 - Only minor imperfections accepted.
